

FrontEnd 2/3 — Scene Blocks, Input & Machine Data (Unity)

Scope: FrontEnd/UI/MachineUI (global namespace)
Bridge interfaces appear as stubs here — the full ISubject/IObserver hierarchy is in FRONTEND_VIEW.puml. Target blocks (BeltBlock, TrackBlock) are detailed in FRONTEND_BLOCK.puml

Scope: FrontEnd/ObserverPattern + FrontEnd/UI widgets (global namespace)
Bridge: the ISubject/IObserver family below is also implemented by backend classes (FactoryStatus, RoundManager, BeltTrack) — see BACKEND.puml.
Scene blocks: FRONTEND_BLOCK.puml, panels & buttons: FRONTEND_PANEL.puml

ObserverPattern
